## About Energy Products

*Energy Products International is a major manufacturer and supplier of heating and air conditioning systems. With branches in all major centres throughout New Zealand, we provide service and value by being close to our customers.*

The company's philosophy is to show leadership by combining a total commitment to technology advancement with a broad perspective on emerging global trends in environmental, economic and societal expectations.

### International Partnerships

In an environment where energy technology has progressed rapidly in the past decade, the company has established an international reputation for its commitment to manufacturing innovation and as a partner to a number of the world's most advanced energy technology suppliers.

Those partnerships play a vital role in assisting Energy Products to identify future international trends and access the best emerging technologies for New Zealand applications.

### Engineering Expertise

Energy Products' dynamic and enterprising company culture extends from the executive office to the factory floor. Formed in 1982, Energy Products has grown from its Hamilton base to develop offices throughout New Zealand, including engineers with an impressive depth of specialist knowledge and a dedication to quality outcomes.

### MISSION STATEMENT

*"To provide the best solutions for heating and air-conditioning applications by applying innovative technology, sound technical knowledge, market insight and engineering experience."*

# Heating Products

## Leading brands selected with care

Brand names which represent industry benchmarks in energy efficiency, advanced technology and reliability are available in New Zealand through Energy Products International. Each product on Energy Products' schedule is the result of careful analysis and selection from Europe, North America, Asia and Australia. Each product represents a significant investment by the company to ensure it can be supplied to clients and supported with absolute confidence.

<b>BOILERS</b> Hot water, gas, oil, electric, coal, wood	AQUATHERM/YGNIS
<b>BOILERS</b> Cast iron atmospheric & wall hung	IMMERGAS MAN BONGIOANNI PENSOTTI
<b>CALORIFIERS</b> Heat exchangers	AQUATHERM ACV
<b>BURNERS</b>	ELCO/CUENOD
<b>CHIMNEY SYSTEMS</b>	AQUATHERM
<b>RADIATORS</b>	AQUATHERM
<b>FAN COIL UNITS</b>	SINKO
<b>VALVES</b> Radiator & heating	HEIMEIER GIACOMINI
<b>EXPANSION SYSTEMS</b>	PNEUMATEX
<b>PIPE SYSTEMS</b>	FLEXALEN UNIPIPE
<b>PUMPS</b> Circulators & boosters	WILO
<b>RADIANT HEATERS</b>	SCHWANK
<b>AIR-HEATERS/FURNACES</b>	AQUATHERM LENNOX BRAEMAR

<b>AIR-HANDLING UNITS</b>	AQUATHERM/CLEVER
<b>CHILLERS</b>	MULTISTACK
<b>FAN COIL UNITS</b>	SINKO
<b>FANS</b>	NICOTRA
<b>AIR-CONDITIONING UNITS</b>	AQUATHERM LENNOX OLIMPIA SPLENDID
<b>FLEXIBLE DUCT/GRILLES</b>	BRADFLO
<b>SYNTHETIC DUCT</b>	PAL SOFTDUCT
<b>COOLING TOWERS</b>	KING SUN
<b>VAV DIFFUSERS</b>	RICKARD
<b>EVAPORATIVE COOLERS</b>	BRAEMAR
<b>AIR CLEANERS</b>	COSATRON

## Markets

*Heating and air conditioning systems for some of the country's major construction projects. This is part of a portfolio of projects which meet every kind of requirement, including:*

- **Airports**
- **Commercial office buildings**
- **Factories**
- **Museum environments housing national treasures**
- **Sports and recreational stadiums**
- **Quality hotels**
- **New Zealand homes**
- **Shopping centres**
- **Educational Facilities**
- **Hospitals**
